

### **Creating and Sustaining a Quality Health Science Program**

**Dec. 6, 8 a.m.-Noon**

**Cost: Free**

This session will focus on key elements of a health science program:

- Increasing academic rigor
- Sustaining community partnerships
- Implementing standards based curriculum
- Strengthening academic achievement through student and program assessment

This session will use a variety of teaching elements; theory, teacher-to-teacher interaction, network building, and application.
