

Nissan's Smyrna Vehicle Assembly Plant Tour

Dec. 6, 9 a.m.-12:45 p.m.

Cost: \$50

The opening of the Nissan Smyrna Vehicle Assembly Plant in 1983 was a groundbreaking moment, bringing automotive production to Tennessee for the first time. The plant has become a force for economic development, creating thousands of well-paying jobs and inspiring other auto companies and suppliers to set up operations in the state.

For more than 30 years, the Smyrna team has been assembling quality, award-winning cars, trucks, crossovers and SUVs. The plant has grown significantly over that time and transformed from a domestic manufacturer to a global one.

Models Currently Produced in Smyrna:

- Nissan Altima
- Nissan Maxima
- Nissan LEAF
- Nissan Pathfinder
- Nissan Rogue
- Infiniti QX60

For more information on what to expect on the tour, please view the short video clip below.
