

Stratford STEM Magnet School

Dec. 6, 8-11:30 a.m.

Cost: \$50

Stratford STEM Magnet School is a grades 5-12 public school in Nashville that provides students with a comprehensive STEM experience. The Upper Campus, grades 9-12, includes the Academy of Science and Engineering offering career pathways in Biotechnology, Engineering, and Interdisciplinary Science Research, and the Academy of National Safety and Security Technologies offering career pathways in Criminal Justice and Cyber Security. In addition to the career pathway classes, this school offers a rigorous curriculum of general education classes that include Advanced Placement and Cambridge courses as well as industry certification and dual enrollment. Its students are supported by 42 active business partnerships that offer pathway related field trips, job shadows, and internships. The school also offers a full range of sports teams as well as clubs such as the award winning Robotics team, Science club, Criminal Justice Cadet Corps, and Mock Trial Team.
