

U.S. Army Corps of Engineers Lock and Dam and Power Plant Tour

Presented by U.S. Army

Dec. 6, 1-3 p.m.

Cost: \$50

The U.S. Army Corps of Engineers will provide a tour to ACTE members to acquaint them with the operations of locks, dams and power plants. The group will visit Old Hickory Lock and Dam and receive a briefing and tour of the exterior parts of the lock and dam. They will then travel to J. Percy Priest Dam and tour the interior of the J. Percy Priest Power Plant. Participants will see a hydroelectric dam and power plant in operation as well as a navigation lock in operation. Registration deadline Nov. 24.
