

### **Leveraging Project Management for Next Level Leadership**

Project management can help you solve some of your biggest challenges both in and outside the classroom. Project management is a practical life skill as well as an important business skill and good leadership skills are critical for an effective project manager.

How do you acquire the skills to activate, guide and lead projects and where can you find the resources help you develop this expertise.

By Attending This Session You Will:

- Understand the basics of project management
- Understand how you may adapt and apply project management as a ACTE leader and as teacher/administrator
- Demonstrate the connections between leadership skills and effective project management
- Demonstrate where to find high value, no-cost classroom project management/PBL learning resources
- Demonstrate the linkages between project management, project-based learning and 21st Century Learning

**Wednesday, Nov. 28, 1-5 p.m.**

**Cost: \$150**

**Cap of 50**
