Emergent Airway Management for the Hospitalist | March 25, 2019 | 1:00 – 4:00 p.m. | \$550

Hospitalists are sometimes called upon to manage a patient's airway in an emergent situation. This session will cover the topics of basic airway management, from recognizing distress to bag-valve mask use, and then progress through oropharyngeal and nasopharyngeal airways to supraglottic devices, concluding with endotracheal intubation and initial ventilator management.

Hill Day* | Wednesday, March 27, 2019 | *By checking this box you are committing to attend this daylong event.

Join fellow hospitalists on Capitol Hill as they advocate on behalf of hospital medicine with Congressional offices. By attending, you will influence important policy decisions, develop relationships with policymakers and become more comfortable with health policy. No prior experience necessary.
