IN PARTNERSHIP WITH

About the Conference

Pultrusion is one of the largest established manufacturing technologies and remains a relevant and substantial process for composites products in existing markets like construction, infrastructure, industrial and energy; and in new markets, like aerospace and automotive. This is one of the few events targeted just for this process and is only offered every 2 years in the United States, so don't miss your opportunity to reach key customers.

Why Participate?

DEVELOP quality leads with those who use pultrusion manufacturing

REACH decision makers and leading industry experts

SHOWCASE your newest and most innovative products and services to customers, composite industry leaders, OEMs and suppliers

NETWORK and attend Education Sessions along-side your customers and prospects

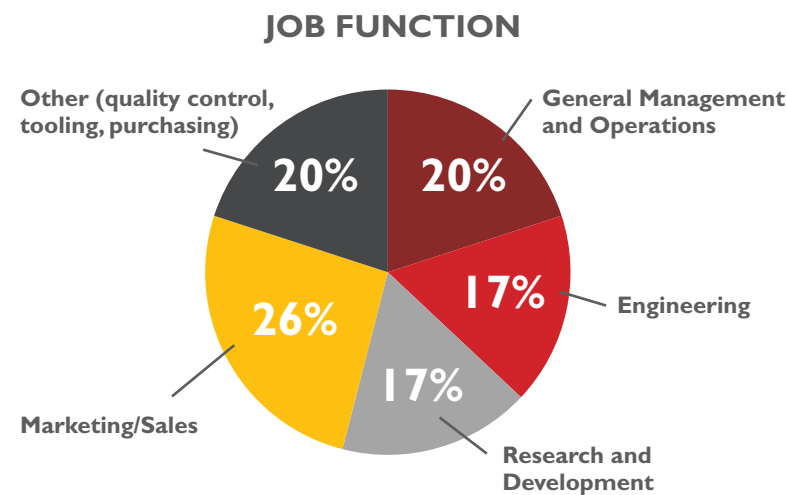

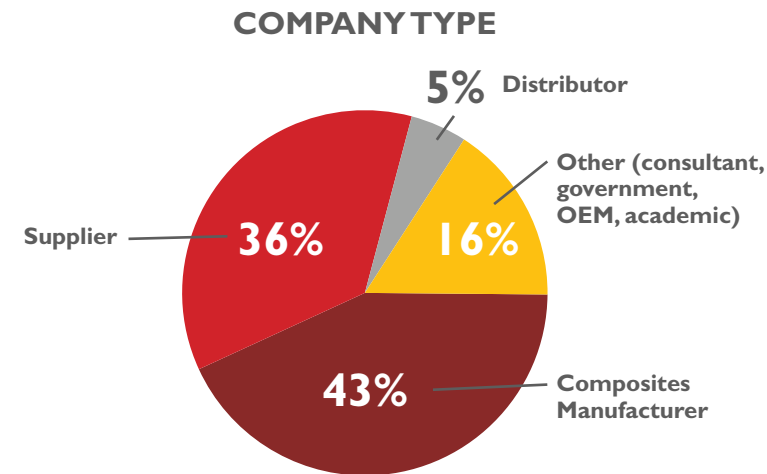

COST EFFECTIVE and easy location near Chicago O'Hare for a variety of entertainment options

REACH THOUSANDS through ACMA event marketing

RECEIVE pre- and post-show attendee lists

DEDICATED exhibit showcase hours with attendees during breakfasts, lunches and a reception
